Slovenia

The Lombard **itineraries and tour packages for all**  
are the main outputs of the European project  
A.L.L. - Across the Lombards' Lands  
[www.acrosslombardslands.eu](http://www.acrosslombardslands.eu)

The **itineraries** for all allow visitors to discover the Lombard heritage of some historical locations in Italy and Slovenia.

Following the routes in an interactive map on the project website, visitors find information about the main historical-artistic sites and tourism services of the territory, including detailed information on their accessibility features, so that each visitor can choose the paths and the structures most suitable to her/his own specific needs.

The description of the Lombard heritage sites is enriched by a multimedia information system that allows you to deepen the knowledge of the art and culture of this people, either by travelling through the itineraries virtually, within the project website, or “on the site”, through activating QR Codes located near the Lombard points of interest.

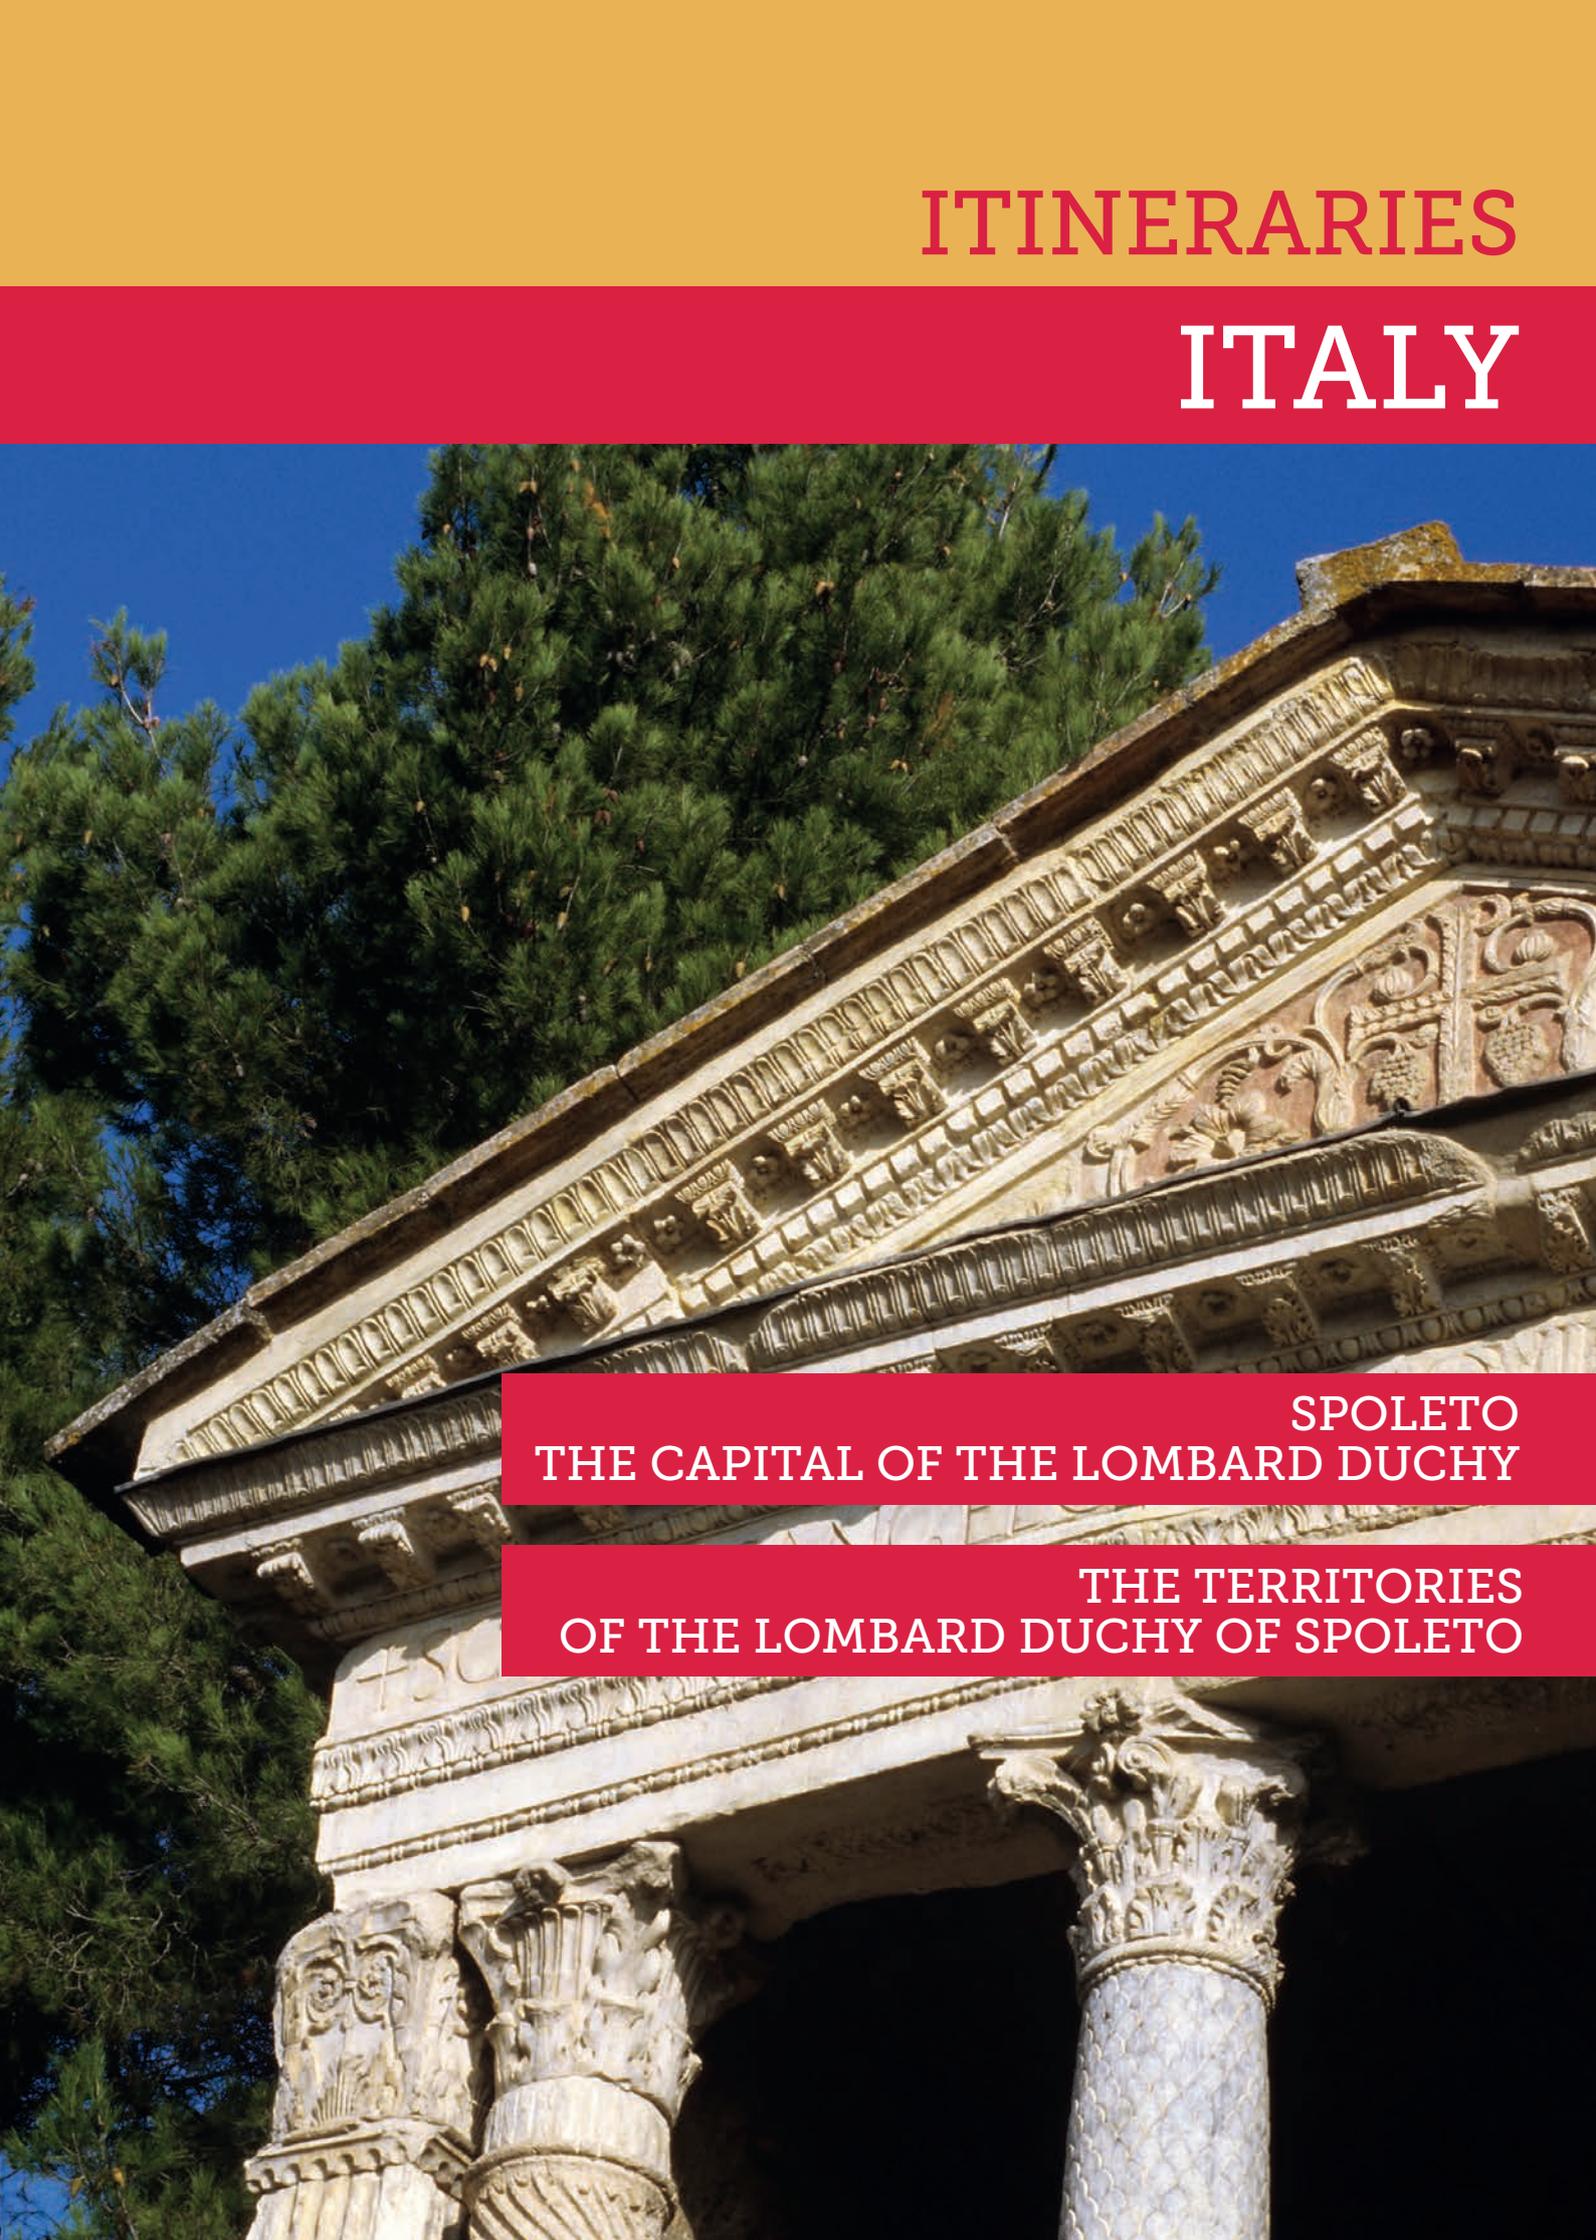

With the aim of fostering the itineraries use and enlarging the tourism supply of the Lombard destinations, nine ready-made **tour packages** for all have been developed, designed to guarantee the highest satisfaction of the visitor, with a balance of cultural enrichment and enjoyable recreation in unique surroundings.

The packages are carefully planned to take into account the specific access needs of the widest range of visitors, so that everyone has a rewarding visit.

*We look forward to welcoming you  
and sharing the rich history of the Lombards  
in these enchanting settings!*
